## PRODUCT SPECIFICATIONS

LENGTH	(with drawbar) 2850mm
WIDTH	1970mm
HEIGHT	2400mm
WEIGHT	400kgs

- Sign size 2400mm x 1200mm
- 15 x large LED lamps, 128mm diameter
- Easy to use controller with mimic display
- Raises to a height of +2m from ground level
- Hydraulic mast operation with 360° pivot of sign
- Sealed maintenance free AGM batteries
- Solid powder coated trailer
- Wheel locking chains
- Heavy duty stabiliser legs
- LED tail lights
- Lockable storage box containing batteries and electronics
- 24/7 emergency support line

**VEHICLE MOUNTED B SIZE**

# ARROW BOARDS

**RMS Approved: 1401 - FAS5 - 0 - 1B AS4192-2006 Compliant**

- ✓ Cost effective;
- ✓ Easy to use
- ✓ Thoroughly tested to comply with AS4192-2006 and RMS FAS 5 standards
- ✓ Lowest power consumption of any arrow board of this type - less than 1 Amp average for a single B size arrow board
- ✓ B & C size available
- ✓ Fully automatic brightness control
- ✓ Left arrow, right arrow, double arrow, non directional warning
- ✓ Single or double sided options
- ✓ Low profile; Lightweight
- ✓ Includes electric actuator
- ✓ LED's have a 50,000+ hour life expectancy

## PRODUCT SPECIFICATIONS

- NATA laboratory certified operation between -10° and +60°
- Engineer certified for travel at speeds to 110kmh (lowered)
- EMC certificate of compliance # T130819\_A
- NATA accredited photometric compliance # 3054-1
- LED Lamps are NATA laboratory certified to IP65
- Control enclosure is NATA laboratory certified to IP45
- Intelligent controller with inbuilt diagnostics
- Full colour OLED screen on dash controller
- Power draw less than 1 Amp (one sided sign)
- Controller displays real time mimic of the sign
- Controller displays battery voltage & brightness
- Controller integrates beacon switch
- Power from Vehicle - 12 or 24 Volt
- LED beacons and beacon brackets also available
- Warranty: 2 years/5 years\*
- 24/7 emergency support line

Single or double sided Arrow Board controller supplied

## PRODUCT SPECIFICATIONS

### DESCRIPTION

Portable trailer mounted traffic light system

### LAMP UNITS

LED lamps per AS 2144

### TARGET BOARDS

Per AS2144

### VISORS

Type A, Per AS 2144

### POWER CONSUMPTION

(In operation mode) < 1 Amp average

### POWER EFFICIENCY

85% approximate

### COOLING

Passive (solid state)

### MOVING PARTS IN CONTROL SYSTEMS

Nil (solid state, no relays)

### RAISE AND LOWER

Brake winch

### TRAILER LIGHTING

8 - 32v recessed LED tail lights

### BATTERIES

2 x 180AH gel batteries

### CABLE LINKED HANDHELD CONTROLLER

Standard on master unit

### SOLAR POWER REGULATED

Yes

### OVERALL HEIGHT (FULLY RAISED)

3485mm (approx)

### OVERALL HEIGHT (STOWED)

2260mm (approx)

### OVERALL TRAILER WIDTH

1710mm (approx)

### OVERALL TRAILER LENGTH

3870mm (approx)

### RADIO LINKED TRAFFIC CONTROL REMOTE

Optional

### SMS DIAGNOSTICS REPORTING

Optional

### VEHICLE DETECTORS

Optional

### SPARE WHEEL

Optional

### OVER RIDE & HAND BRAKE

Optional

Fully integrated high resolution digital camera  
Available as an additional feature on the PTL

Weatherproof handheld controller

**SAFE OPERATION:** Hand controller on a 5 metre lead for off-road programming...for ease and convenience

- ✓ Small compact addition to the functionality of your Portable Traffic Lights
- ✓ Remote operation
- ✓ Actively record motorists for traffic monitoring
- ✓ Data storage for min 30 Days
- ✓ Unobtrusive camera system

## SAFETY TRAFFIC LIGHT CAMERA SYSTEM

# SOLAR PTL CAM

**Simplest, Most Effective Camera on the Market**

### FEATURES

- ✓ Fully Integrated, ultra-low powered digital camera with 3G modem
- ✓ Low power draw – no need for extra solar panels or batteries
- ✓ Remote login for camera showing still images
- ✓ Choice of wide angle or telephoto lenses to match the area to be monitored
- ✓ Easy to use software with alerts to be sent to the user's mobile phone or email alerting of any changes on what is monitored
- ✓ Image storage for up to 30 days, with indefinite storage available\*
- ✓ Solar powered spotlight synchronised to flash only on capture of image at night time

### FUNCTIONS

- ✓ Acts as a red light camera for use on Portable Traffic Lights (not enforceable)
- ✓ A complete camera monitoring system to monitor roads, traffic and construction sites, integrated with our Portable Traffic Lights
- ✓ Actively monitor traffic with the camera and capture images of motorists who disobey the red traffic signal
- ✓ Use the captured images as evidence if an incident occurs
- ✓ Built in flash for clarity of images at night
- ✓ Images are sent immediately to a map based web page for multiple access monitoring
- ✓ All images are concurrently stored on an internal removable 8GB SD Card for movie compilation or legal evidence
- ✓ Full control of camera system via SMS commands
- ✓ Five image burst to detect speeds up to 80km/hr

## SAFETY VMS BOARD CAMERA SYSTEM

# SOLAR VMS CAM

**Simplest, Most Effective Camera on the Market**

### FEATURES

- ✓ Fully Integrated, ultra-low powered digital camera with 3G modem
- ✓ Low power draw – no need for extra solar panels or batteries
- ✓ Remote login for camera showing still images
- ✓ Choice of wide angle or telephoto lenses to match the area to be monitored
- ✓ Easy to use software with alerts to be sent to the user's mobile phone or email alerting of any changes on what is monitored
- ✓ Image storage for up to 30 days, with indefinite storage available\*
- ✓ Solar powered spotlight synchronised to flash only on capture of image at night time
- ✓ Optional B/W camera with infra red flash available

### FUNCTIONS

- ✓ A complete camera monitoring system to monitor roads, traffic and construction sites, integrated with our VMS boards
- ✓ Actively monitor traffic with the camera and advise motorists of any traffic changes/updates on the VMS
- ✓ Monitor low lying areas during wet weather periods without going to site and update message on the VMS board completely remotely
- ✓ Images are sent immediately to a map based web page for multiple access monitoring
- ✓ All images are concurrently stored on an internal removable 8GB SD Card for movie compilation or legal evidence
- ✓ Full control of camera system via SMS commands
- ✓ Set on time lapse to correlate progressive images of the project

### LENS ANGLES

**HIGH IMPACT ADVERTISING**

# LED SIGNS

**100% Attention Seeking**

When it comes to illuminated signage, LED is a no brainer - low maintenance, vibrant, versatile and great value. LED signs provide a consistent eye catching brightness unparalleled by fluoro or neon. They are a better choice environmentally, using 80% less energy than neon, are cheaper to run and contain no toxic gases or metals. Selling a product, event or informing patrons, LED signs are essentially one of the most cost effective and eco friendly advertising media on the market. Great for schools, hotels, clubs, retail, entertainment venues and more.

LDC Equipment can custom design and manufacture your LED sign on the Gold Coast!

# SOLAR LIGHTING TOWER

**NEW, Super-Powerful Mobile Solar Light**

Our brand new design Solar Lighting Tower, designed and built in Australia represents energy efficiency at its finest. This 100% Aussie engineered device not only uses zero power (other than the sun!), it's completely noiseless and throws out amazingly powerful light - a minimum 200w LED (max.400w) for a distance of up to 30m on the SLT4 model. Fully automated and trailer mounted, the Solar Lighting Tower offers more light where you need it, simply and effectively. It is easily transportable and can be set up in next to no time.

## **ALL-IN-ONE LED SOLAR STREET LIGHT**

**100% Solar Powered**

Brand new release using the very latest technology: All-in-One Solar LED Street Light, a fully integrated system incorporating LED light, battery and solar panel within one compact unit. The Solar Street Light can be mounted to anything and is very easy to install. It offers 100,000+ hours of operation per LED, and is fully automated, turning on at dusk and off at dawn independently. The system rivals all others with its integral PIR motion sensors, MPPT controller, high efficiency LiFePO4 battery system, and premium quality LEDs. With a range of watts and sizes available, there is a solar light to suit any application, large or small. All-in-One Solar Street Lights are a more cost effective and eco-friendly alternative to traditional street lights.

## VEHICLE FITOUTS **CASE STUDY**

### PLATINUM TRAFFIC

Traffic control company Platinum Traffic approached LDC Equipment to supply their 7 new utes with custom-made Fitouts, Arrow Boards, and VMS Boards. With a sound background in traffic equipment design and manufacture, and an experienced team of engineers, designers, developers, welders and assemblers, LDC Equipment completed the job ahead of schedule and below budget! The new fitouts can currently be viewed on the Warrego Highway upgrade!

*"Platinum Traffic recently contracted LDC Equipment to fit-out our traffic control vehicles. With a very quick turnaround, LDC had our 7 utes fully fitted with cages, Arrow Boards, and a Tray mounted VMS Board to an exceptionally high standard. The quality of craftsmanship and materials is outstanding, it's great to see such manufacturing produced in Australia!*

*Great work guys, look forward to working with you in the future!"*

**Erron Smith, General Manager - Platinum Traffic**

**CUSTOM-MADE:** Australian designed and built to your specifications!...*for ease and convenience*
