# SOLAR LIGHTING TOWER

**NEW, Super-Powerful Mobile Solar Light**

Our brand new design Solar Lighting Tower, designed and built in Australia represents energy efficiency at its finest. This 100% Aussie engineered device not only uses zero power (other than the sun!), it's completely noiseless and throws out amazingly powerful light - a minimum 200w LED to be precise! Fully automated, trailer mounted and with an optional back up generator, the Solar Lighting Tower offers more light where you need it, simply and effectively.
